

Flexible Space Association Awards 2021

Service Innovation Award

Recognising new or expanded services that benefit flexible workspace customers, which have been implemented in 2020 or 2021.

The judges will be looking for examples of innovative projects which have delivered benefits to customers of flexible workspace. These might include health and wellbeing activities, networking events, or remote support given during the pandemic. There is not a fixed criteria on services which will be considered, but they will have delivered something different or particularly innovative to benefit customers.

The smooth and timely delivery of a planned project will be a factor in the judges' consideration, as will the successful roll-out of its use.

Please note there is a separate category for technology innovation, so initiatives which are substantially technology led will not be considered in this category.

Projects will need to have been undertaken during 2020 or 2021 to be eligible for this award.

The **deadline for applications is 6pm on Tuesday 26 October**. These must be submitted in electronic format to jane.sartin@flexsa.co.uk
